📍 Pune

SUMMARY

Full Stack Web Developer with a strong foundation in Computer Science and Engineering – Artificial Intelligence. Passionate about developing both front-end and back-end web applications using the MERN stack. Currently enhancing skills through hands-on projects and continuous learning. Strong understanding of Data Structures and Algorithms, with a focus on building efficient and scalable solutions. Highly motivated to contribute to real-world applications and collaborate on impactful tech-driven projects.

EXPERIENCE

WEB DEVELOPMENT INTERN

TechnoHacks

📅 01/2025 – 02/2025 📍 Pune

Web Developer Intern

- Built and deployed two full-stack MERN projects with responsive and scalable design.
- Developed backend APIs using Node.js and MongoDB for authentication and data management.
- Collaborated with React developers for seamless frontend-backend integration.

WEB DEVELOPMENT INTERN

Web Planet

📅 07/2022 – 08/2022 📍 Jalgaon, Maharashtra

Industrial Training

- Developed and deployed two responsive web projects using HTML, CSS, JavaScript, and PHP.
- Designed user-friendly interfaces and ensured cross-browser compatibility.
- Implemented form handling and dynamic content rendering using PHP and JavaScript.

EDUCATION

Bachelor of Technology in Computer Science and Engineering – Artificial Intelligence

PCET Nutan College of Engineering and Research, Talegaon Dabhade

📅 09/2023 – Present 📍 Pune

CGPA: 7.2

Diploma in Computer Engineering

Government Polytechnic Jalgaon

📅 12/2020 – 07/2023 📍 Jalgaon, Maharashtra

Percentage: 81.66%

PROJECTS

Portfolio

Showcasing projects in web development, UI design, and real-world applications.

Includes responsive websites, dynamic apps, and project source code with live demos.

Tech Used: HTML, CSS, JavaScript, React

<https://sneha-wani.netlify.app/>

To-do Application

Developed a full-stack To-Do app using MongoDB, Express.js, React.js, and Node.js (MERN stack).

Implemented features like task creation, editing, deletion, and completion with real-time UI updates.

Tech Used: HTML, CSS, JavaScript, Full Stack

<https://todos-listapp.web.app/>

User Authentication System with Email OTP Verification

Built a secure authentication system using Node.js, Express.js, and MongoDB.

Implemented OTP-based email verification using Nodemailer, ensuring only valid users can register.

Enabled user registration, login, OTP verification, and session handling for secure access control.

Tech Used: HTML, CSS, JavaScript, Full Stack

<https://authentication-sw.web.app/>

SKILLS

Programming Languages: C, JAVA, Python, JavaScript, PHP

Database: MySQL, MongoDB

Frameworks: Ajax, Bootstrap, Tailwind CSS

Web Design: HTML, CSS, Figma

Additional Skills: DSA, Latex Documentary

Deployment: Firebase, Netlify

CERTIFICATIONS

- Data Structure and Algorithms using Java by NPTEL
- Data Base Management System by NPTEL
- C, JAVA, PYTHON, JAVASCRIPT
